

GLACIER CRYSTAL MOUNTAIN

Water Cooler

A flexible free-standing bottle-fed water cooler that's easy to maintain and offers superb value for money.

The Glacier free-standing water cooler offers a reliable and durable drinking water solution that's ideal for locations where a mains water supply is not available. Finished in a classic Greek column design, the Glacier features in bottle-fed water technology giving you a combination of hot and chilled, or ambient and chilled water in a matter of moments.

FLEXIBLE SOLUTION

Available with chilled and ambient or hot and chilled water, the Glacier offers increased flexibility as no mains connection is required. It also accepts most standard 19 litre water bottles.

ENHANCED SAFETY

The hot and chilled model features an integrated tamper-proof safety switch, protecting children from accidental burns and scolds.

EASY TO MAINTAIN

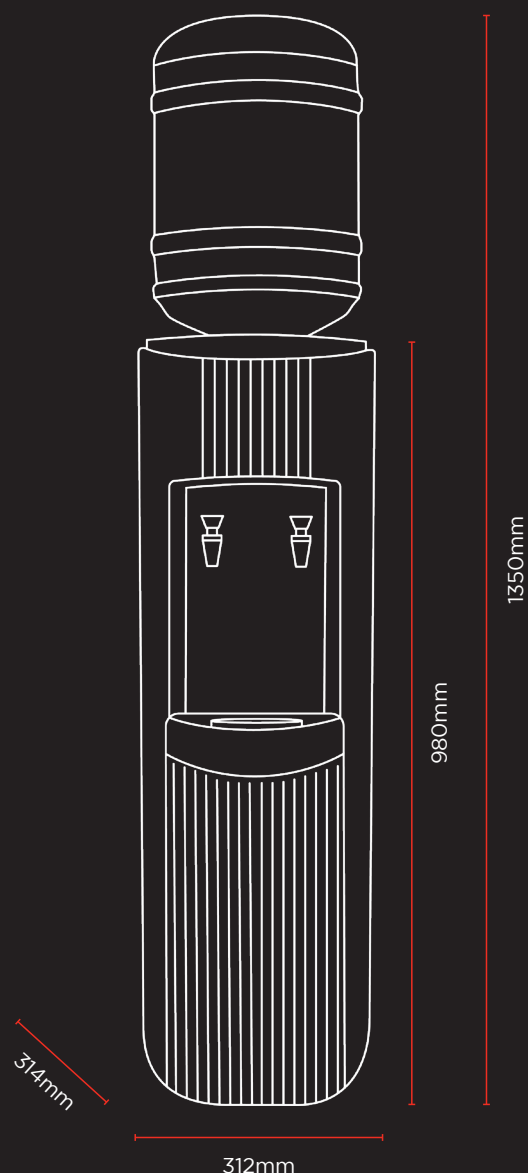

With a removable reservoir and drip tray, the Glacier bottle-fed water cooler is exceptionally easy to clean and maintain.
