MT4 MARCO

Hot Water Boiler
Introducing Marco's
latest innovation in
instant water boiling
technology.

This compact machine is an ideal hot water solution for any workplace, producing boiling water to be used for teas, coffees and other hot beverages. Save the time you would usually spend waiting for the kettle to boil, with instant hot water dispensed at your leisure with the MT4. The ideal solution for serving both employees and customers throughout the working day.

LIQUIDLINE

SIMPLE TO USE & CLEAN

Thanks to the removable drip tray, maintaining and cleaning the MT4 is simple and easy to do. Anyone can use this machine, which dispenses hot water with the flick of a tap.

COMPACT & STYLISH

The stainless steel and compact design is sleek and stylish - the perfect fit for any workplace. The MT4 can be placed on any countertop and take up little space, there for whenever you need it.

ENERGY EFFICIENT

The insulated tank keeps water at the ideal temperature and provides minimal energy loss, saving your business money.

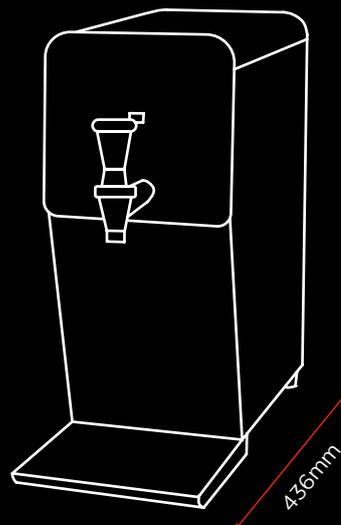

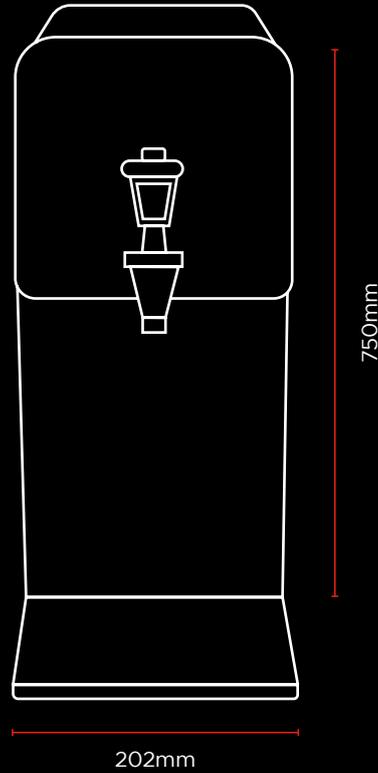

OPTIONAL HANDS-FREE TAP ADAPTER

The MT4 Water Boiler is compatible with Marco's Hands-Free Urn Tap Adapter. Easy to use, the hands-free adapter helps to prevent the spread of germs in the workplace.
