

Liquidline Ice Dispenser

Automatic Ice Dispenser

The Liquidline Ice Dispenser is a stylish solution designed for modern commercial environments. With its sleek design, smart touch interface and hygienic enclosed system, it delivers up to 80kg daily of premium nugget ice with both ease and efficiency. Ideal for workplaces and other self-service environments, it ensures high-quality, low-maintenance dispensing with maximum user convenience.

Liquidline Ice Dispenser

Liquidline Ice Dispenser

Built with precision and practicality in mind, the Liquidline Ice Dispenser offers quiet operation, energy-efficient performance and an ideal solution for providing iced drinks for your workplace. Its automatic cleaning cycle reduces downtime, while the durable design ensures long-term reliability. Designed to support sustainability and ease of use, it's a smart choice for forward-thinking businesses.

STYLISH & MODERN DESIGN

The Liquidline Ice Dispenser is a standout addition to any modern workspace setting. Its minimalist design complements contemporary interiors and adds a touch of sophistication, without compromising on performance or functionality.

HIGH QUALITY ICE

Enjoy the perfect drink every time with nugget ice. The Liquidline Ice Dispenser produces up to 80kg of soft, slow-melting ice daily, ideal for refreshments that stay colder for longer. It's the preferred choice for those who value a premium refreshment experience.

INTELLIGENT TOUCH CONTROL

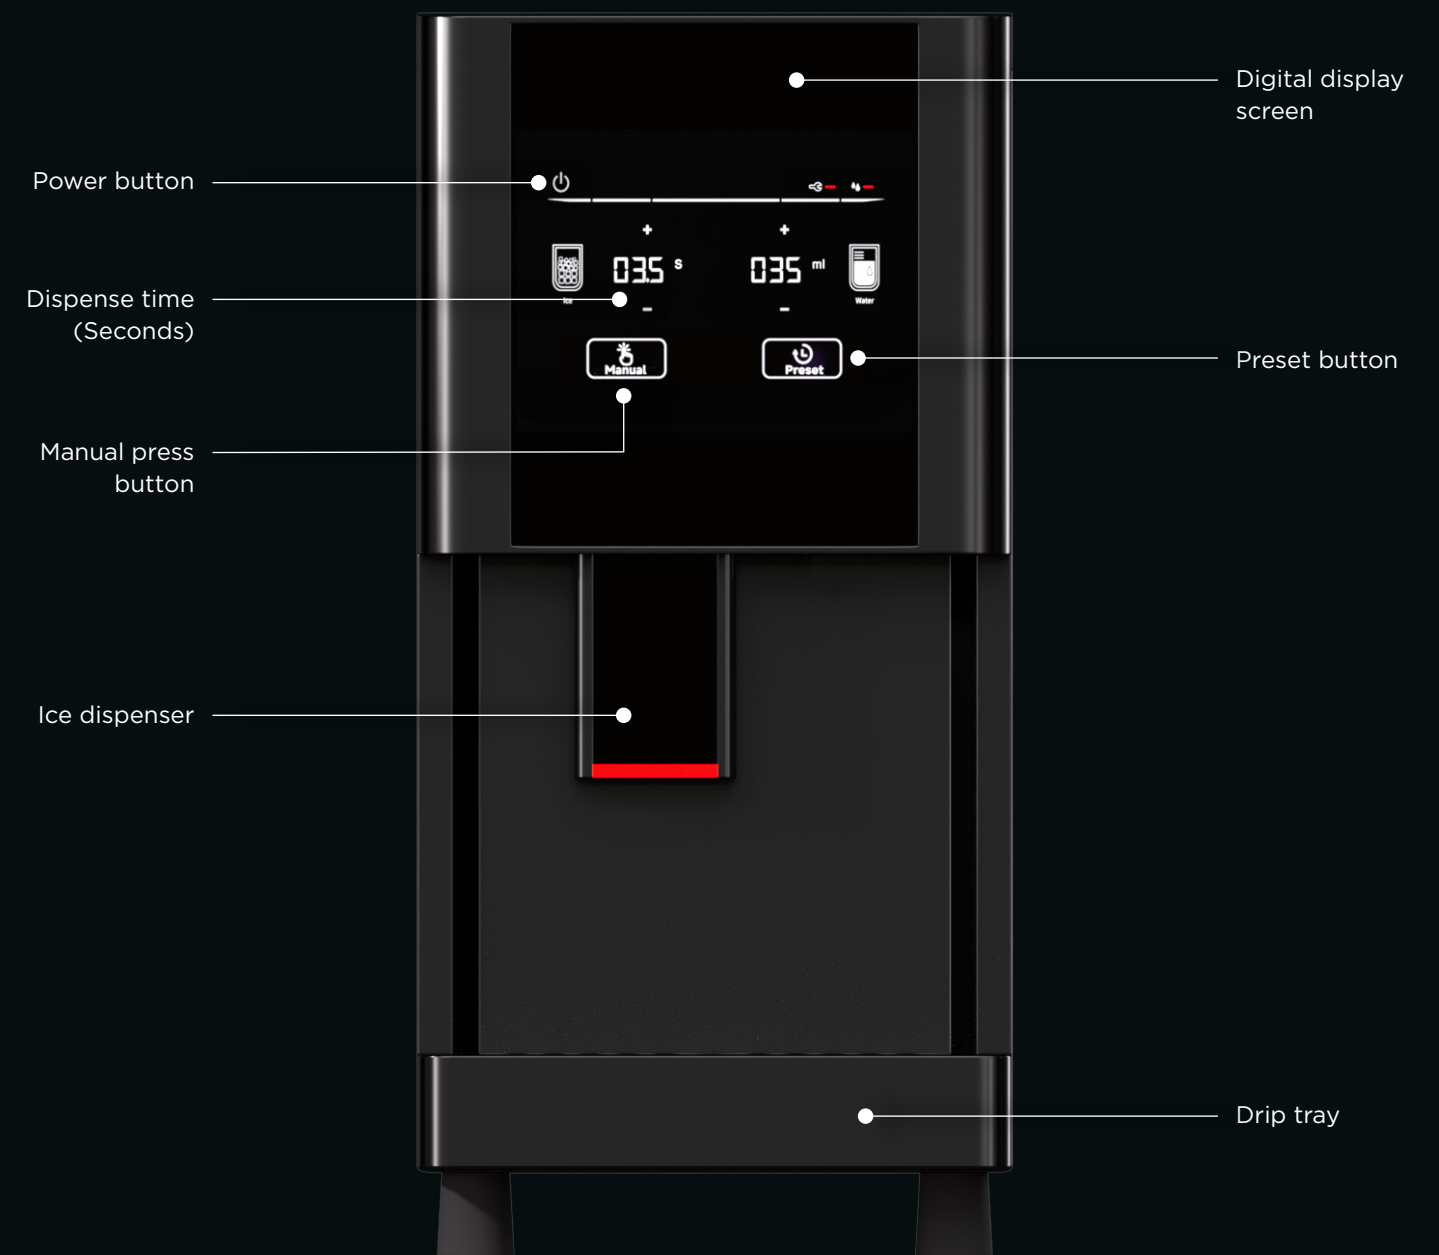

The intuitive digital touch screen puts you in control, allowing precise dispensing of ice with just a tap. Perfect for self-serve stations and office tea points, the smart interface ensures ease of operation, making it perfect for a busy office environment that demands efficiency and simplicity.

SEAMLESS INTEGRATION

The Liquidline ice dispenser seamlessly integrates with the Liquidline K2 bean-to-cup coffee machine to deliver refreshing iced beverages. The system allows users to create a variety of chilled drinks, enhancing convenience and versatility, making it ideal for workplaces settings looking to offer premium iced refreshments with minimal effort.

LOW MAINTENANCE OPERATION

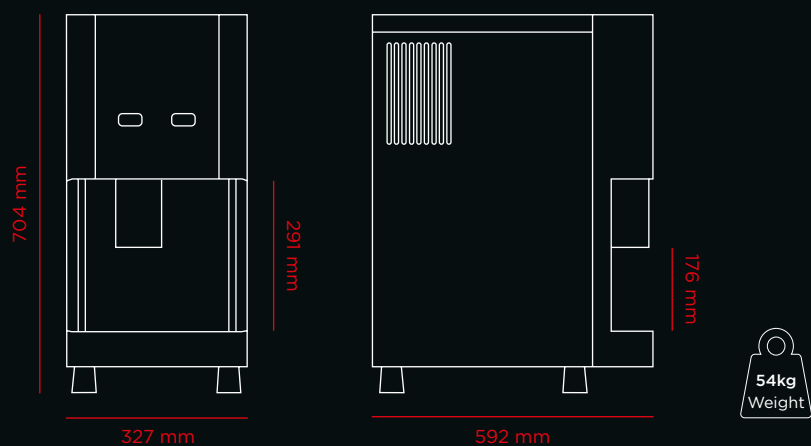

Designed with hygiene in mind, the machine features a fully enclosed ice-making system and automatic waterway cleaning. This ensures every cube is safe, clean and ready to serve. With minimal maintenance required, it's a reliable solution for businesses that prioritise cleanliness, safety, and consistent performance around the clock.

“

Engineered for elegance, built for performance. Ice dispensing made effortless.”
