

# Aquablu REFILL+

## Flavoured Water Dispenser

The Aquablu REFILL+ is a smart hydration system that offers a wide range of combinations, for quality refreshments without the additional waste caused by disposable bottled beverages. This machine does it all, as well as flavoured options it offers standard filtered and sparkling water, so there is no need for an additional water machine. Made with natural flavours and enriched with vitamins, minerals, and electrolytes for added health benefits.

# Aquablu REFILL+

Aquablu REFILL+

The Aquablu REFILL+ offers seamless connectivity by providing real-time maintenance alerts and updates on ESG efforts through the systems built in sustainability metrics. This design helps you meet your environmental objectives by offering a sustainable alternative to bottled drinks. Features like sleep mode, and adjustable dispensing volume ensure a user-friendly, eco-conscious experience.

## ADVANCED WATER PURIFICATION

Aquablu REFILL+ uses patented CleanFlow technology to eliminate 99.99% of contaminants, delivering ultra-pure water. The system effectively filters out chlorine, microplastics, heavy metals, and PFAS, while UV light ensures every drink is hygienically dispensed. Trust REFILL+ to provide clean, safe hydration with its state-of-the-art purification process.

## EASY TO USE

Customising your drink with Aquablu REFILL+ is effortless. You can choose between ambient, chilled, or sparkling water, select from four delicious flavours, and easily adjust the strength of each. Plus with three different pouring options, this intuitive system makes it easy to craft the perfect drink to your exact taste every time. and hassle-free.

## DELICIOUS AND BENEFICIAL FLAVOURS

The Aquablu REFILL+ offers 4 functional flavours, each packed with a wealth of extra benefits like added vitamins, minerals, and electrolytes. Whether you're after a refreshing boost with zero sugar or an immunity boosting sparkling treat, REFILL+ provides flavourful, healthy hydration to suit any mood.

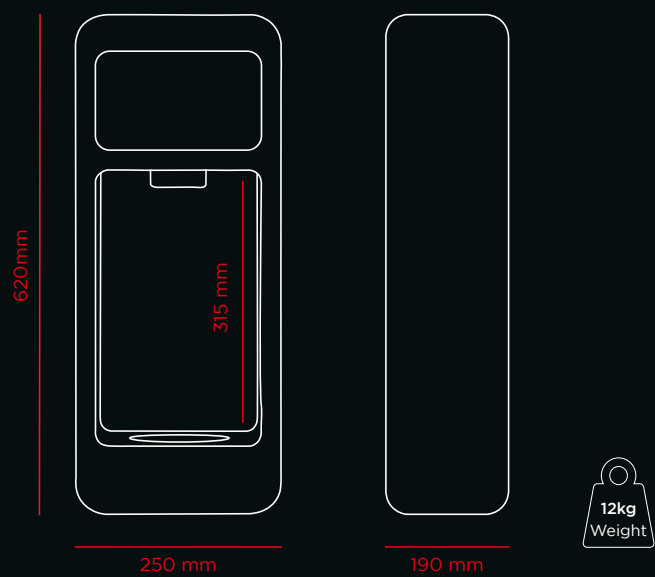

## EFFICIENT AND HYGIENIC

The REFILL+ features a patented nozzle design that enables multiple drink types to be dispensed from a single nozzle to ensure no cross contamination of flavours ensuring the perfect taste every time. Whether you prefer plain water or a nutrient-enriched beverage, you can enjoy a wide variety of options from one sleek, efficient system, all while ensuring a hygienic experience.

“Offering not only flavoured water but still and sparkling too, we installed the Aquablu in our office to easily provide employees with even more options and flexibility.”
