# Powdered Milk

## Bean to Cup Machine

A high-volume, dual hopper bean to cup, powdered milk coffee machine that offers users customisable milk options and quality hot drinks. The K2 blends cutting-edge technology with delicious coffee and has up to 30 programmed drink configurations, making it the ideal choice for busy commercial spaces.

# K2

## Powdered Milk

K2 with Powdered Milk

In the world of commercial coffee machines, the K2 Powdered Milk Bean to Cup Coffee Machine stands out as a real crowd pleaser. Its sleek and modern design integrates advanced technology in order to consistently deliver perfect espresso every time.

### USER-FRIENDLY DESIGN

Effortlessly customise your hot drink with the K2's 10.1" android colour touchscreen, featuring an up to date and user-friendly interface. The machine's intuitive design allows for quick adjustments, ensuring every drink is tailored to meet the user's needs, crafting a delicious coffee experience sip after sip.

### EASY TO MAINTAIN

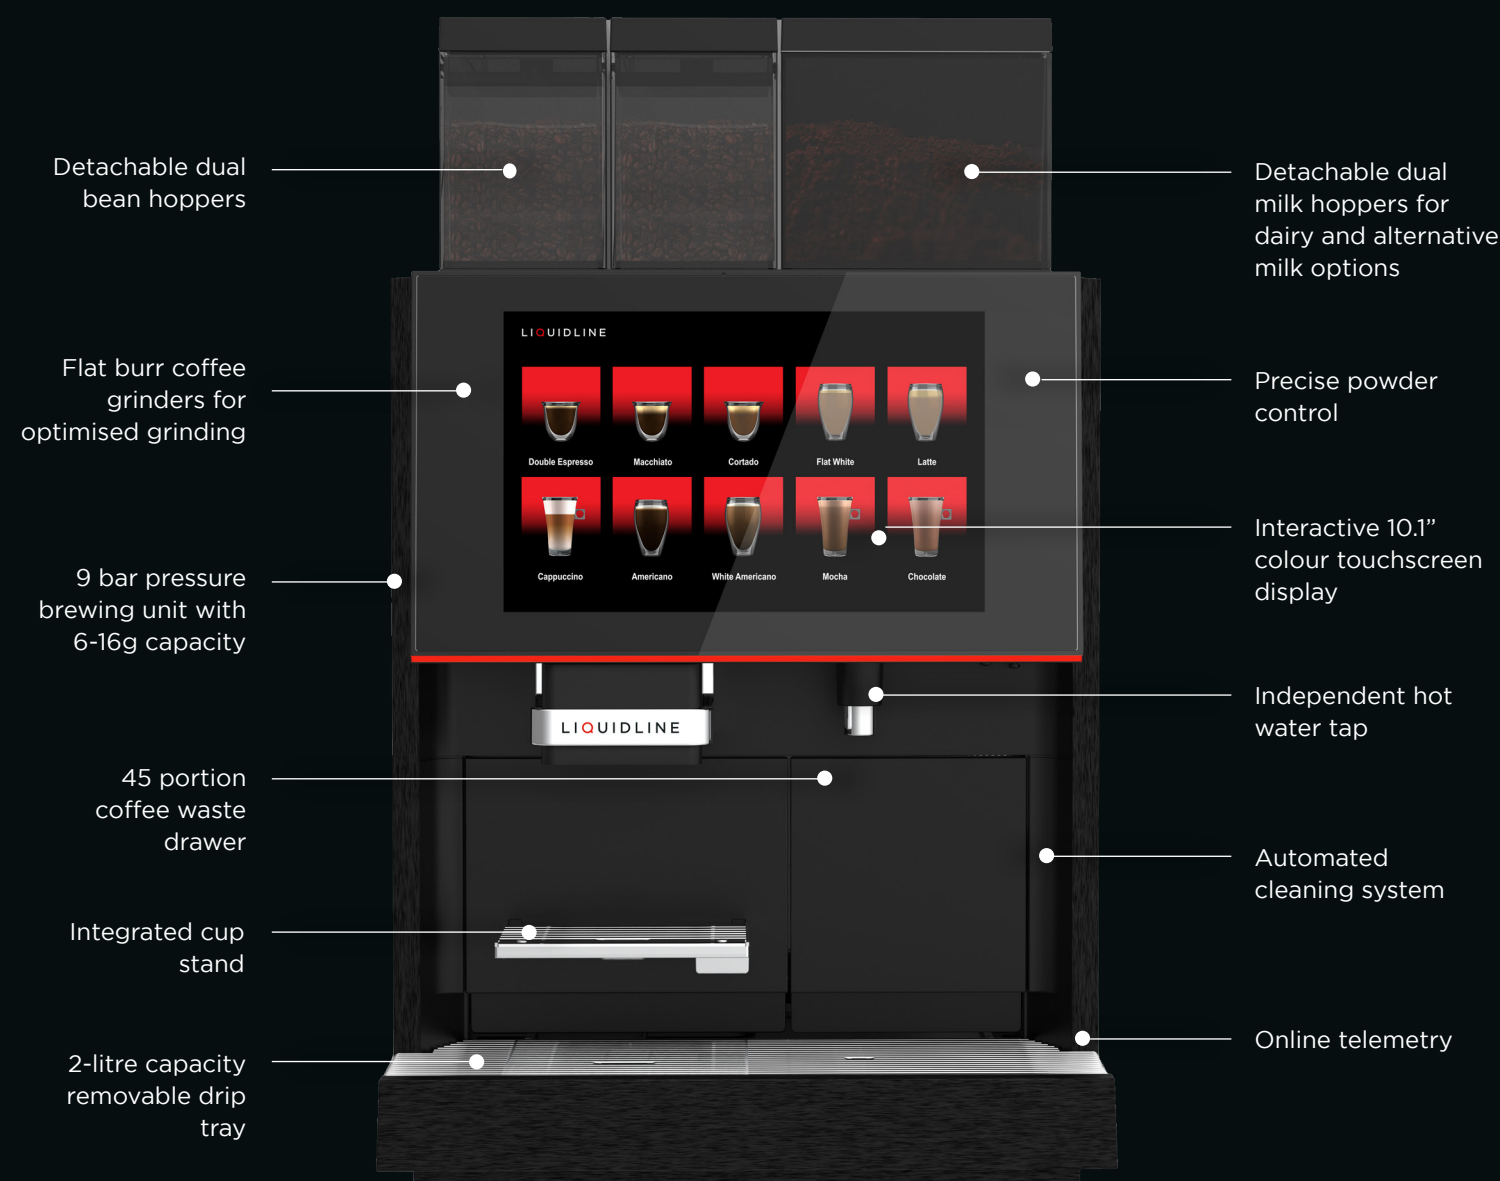

Maintaining the K2 Powdered Milk Coffee Machine is easy thanks to its automated cleaning system that is carried out every time the machine is switched on and off. This cleaning programme helps keep on top of preventative maintenance and ensures it's always prepped for optimal performance, reducing overall machine downtime. The four hoppers on top the K2 are detachable to make cleaning all aspects of the machine quick and hassle-free.

### DUAL BEAN & MILK HOPPERS

With two bean hoppers, each with 1kg capacity, you can offer two separate blends of coffee, ensuring a variety and catering to both light and dark roast lovers. The K2 also features dual powdered milk storage hoppers to meet the needs of those who would like an alternative to dairy, these hoppers have a 1kg capacity each too.

### INTEGRATED MODERN TECHNOLOGY

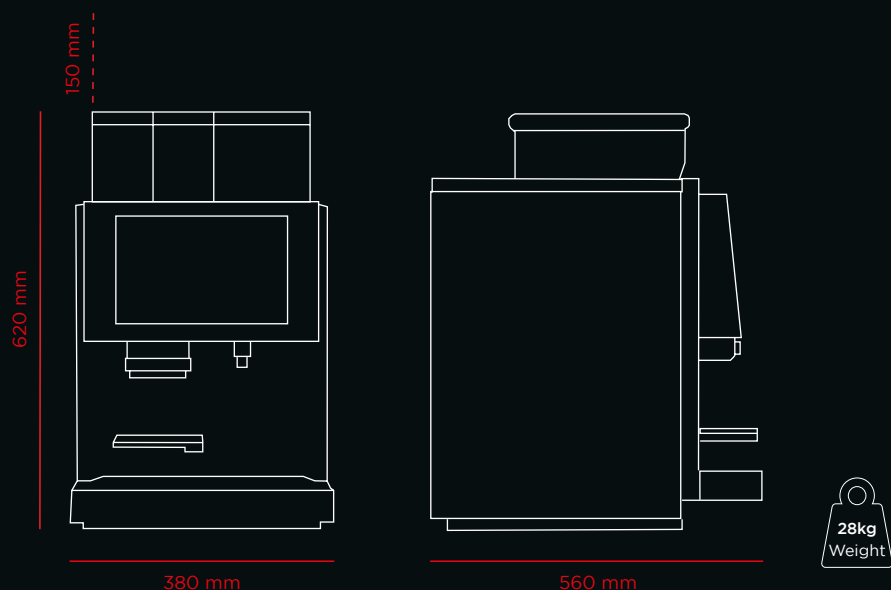

The K2's advanced features include precise grinding and powder technology thanks to its efficient flat burr grinder, paired with a professional brewing system producing 9 bar extraction pressure and a 20% extraction rate. This machine perfectly integrates modern technology to enhance your coffee experience.

“

The K2 is a truly great addition to any space. It is incredibly easy to use and keep clean. With two powder hoppers you can also offer dairy free options!”
