K-FEE LATTENSIA<sup>+</sup>

SMART LUXURY

# SMOOTH AUTOMATION FOR A TOUCH OF LUXURY IN YOUR LIFE

The K-fee LATTENSIA<sup>+</sup> is the incredible combination of a fully automatic coffee maker and capsule coffee machine for a variety of taste sensations at the touch of a button.

## **K-FEE LATTENSIA<sup>+</sup>: THE SHINING STAR OF TWO BOOMING SEGMENTS**

K-fee capsule coffee machines are famous for their excellent espresso drinks topped with crema perfection – and for their varied multi-beverage options. Fully automatic coffee machines are a popular choice, because they create latte drinks at the touch of a button. The K-fee Lattensia<sup>+</sup> fully automatic capsule machine checks all the boxes – delivering top beverage quality (real espresso), an extensive range of beverages (multi-beverage variety), and ultimate convenience.

Use the K-fee LATTENSIA<sup>+</sup> to create your favorite drink. Whether you love an espresso, latte macchiato, lungo, filter coffee, chocolate or tea, the K-fee LATTENSIA<sup>+</sup> can take care of it.

Since 2011, this versatile, multi-beverage system has been winning the hearts around the globe. With K-fee, you can enjoy a unique experience with delicious premium-quality speciality drinks at the touch of a button, just like in a café.

Thanks to the Duo-Pressure technology, every K-fee capsule machine can prepare espresso with a stunning hazelnut-brown crema and also coffee without crema in the style of brewed coffee.

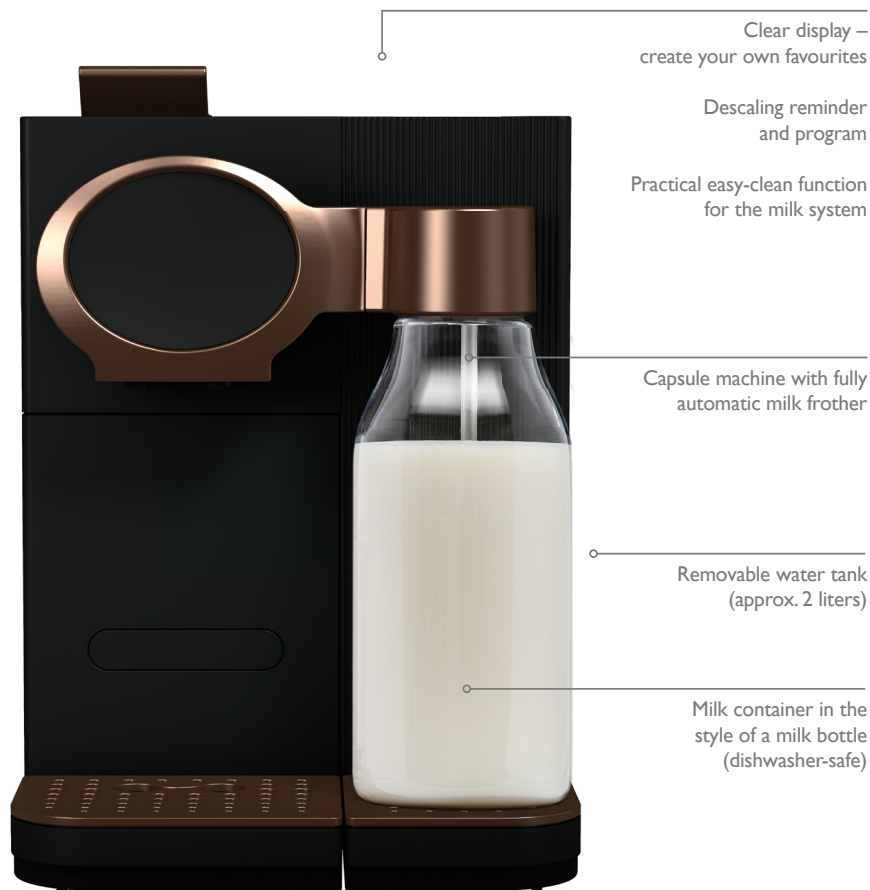

K-fee is open-minded and flavour knows no bounds. That's why many major brands have joined the K-fee system and are offering capsules, including wellknown coffee, tea and chocolate brands, as well as emerging newcomers.

### SMART LUXURY AT THE TOUCH OF A BUTTON

- The convenience of a fully automatic machine PLUS espresso perfection PLUS multi-beverage variety.
- K-fee quality PLUS the convenience of milk as with a fully automatic machine PLUS a unique design.
- Premium espresso, latte macchiato, and other drinks from one machine rather than just pad or filter coffee.

### SPECIFICATIONS
