

Liquidline Hot Chocolate Machine

Hot Chocolate Machine

Serve high-quality hot chocolate at scale with a system designed for simplicity and flexibility. The Liquidline Hot Chocolate Machine offers up to three drink options from a single unit, making it easy to expand your drinks menu without adding complexity. With high-capacity canisters, intuitive self-service operation and reliable performance, it supports consistent output throughout the day while minimising refilling, training and ongoing maintenance.

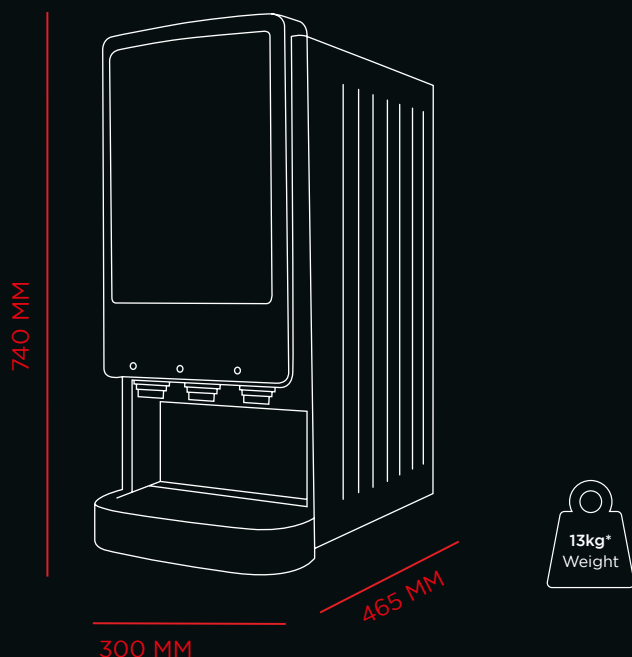

“

Simple to use, reliable and consistently great drinks, this machine is perfect for busy self-service environments.”
