

Billi OmniOne

Hot & Cold Water Taps

The Billi OmniOne range delivers a complete, space-saving hydration solution for modern workplaces. Combining boiling, chilled and sparkling filtered water with advanced energy-efficient technology, it offers powerful performance in a compact under-counter design. With intuitive controls, hygienic operation and flexible configurations, the OmniOne range is built to support busy environments with ease, efficiency and reliability.

Available Models:

Billi OmniOne Pro 60 Sparkling

Billi OmniOne Plus 9 Sparkling

Billi OmniOne

Designed for modern workplaces, the Billi OmniOne range brings together performance, efficiency and simplicity in one compact system. Whether delivering instant boiling water for hot drinks or refreshing chilled and sparkling options, each unit is engineered to streamline daily use while maintaining exceptional hygiene and reliability. Built for offices, hospitality and high-use environments, it supports consistent performance throughout the day.

SPACE-SAVING DESIGN

The OmniOne range integrates advanced water-cooling and heat exchange technology into a compact under-bench unit, freeing up valuable countertop space. With no cupboard ventilation required, installation is faster, simpler and more flexible, making it ideal for environments where space and practicality are key.

DESIGNED FOR EVERYDAY USE

The ergonomic XL levered dispenser delivers boiling, chilled and sparkling water safely and effortlessly. Intuitive controls reduce training requirements, allowing users to operate the system with confidence, even in busy environments. Adjustable chilled temperature and sparkling levels ensure a tailored drinking experience.

ENERGY EFFICIENT PERFORMANCE

Engineered with sustainability in mind, the OmniOne range uses innovative heat exchange technology to recycle energy and reduce power consumption. Combined with water-cooled operation, this ensures efficient performance without compromising output, helping businesses lower running costs while supporting environmental goals.

HYGIENIC & USER FRIENDLY

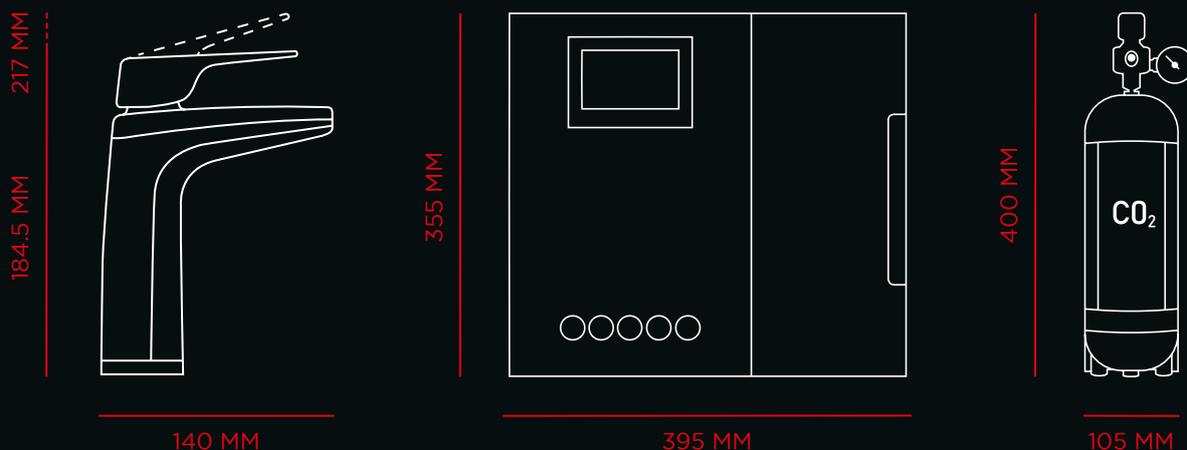

With HACCP certification and BPA-free construction, the OmniOne range meets high standards of hygiene and safety. Splash-free boiling water delivery, cool-touch tap surfaces and built-in safety locks provide added reassurance, making it suitable for workplaces where safety and compliance are essential.

“

The Efficient & space-saving, the Billi OmniOne range delivers reliable hydration safely throughout our offices.”

Billi OmniOne Pro 60 Sparkling

Technical Information

Specification
