

Borg & Overström T3

Advanced Water Tap System

The Borg & Overström T3 is a cutting-edge hydration solution that combines premium aesthetics with intelligent design. Delivering hot, chilled, ambient, and sparkling filtered water, the T3 offers unparalleled functionality. Compact and energy-efficient, it features advanced technologies like EcoMode and DryChill®, providing sustainable hydration without compromise, making it the perfect addition to modern workspaces.

Borg & Overström T3

Borg & Overström T3

The Borg & Overström T3 revolutionises workplace hydration with a sustainable, user-friendly design. Its advanced energy-saving features, like EcoMode, help to reduce energy consumption by up to 70%, while its compact ProCore® system ensures a seamless, ventilated fit under any counter. Built for sustainability and efficiency, the T3 helps you achieve your environmental goals without sacrificing performance or quality.

GUARANTEED HYGIENE STANDARDS

The T3 is equipped with Totality® filtration, a comprehensive system ensuring superior water purity and hygiene. It removes impurities like chlorine and microplastics, while DryChill® technology eliminates the need for a water tank, reducing contamination risks. From the first pour to the last, the T3 delivers clean, fresh-tasting water every time.

EFFICIENT AND VERSATILE

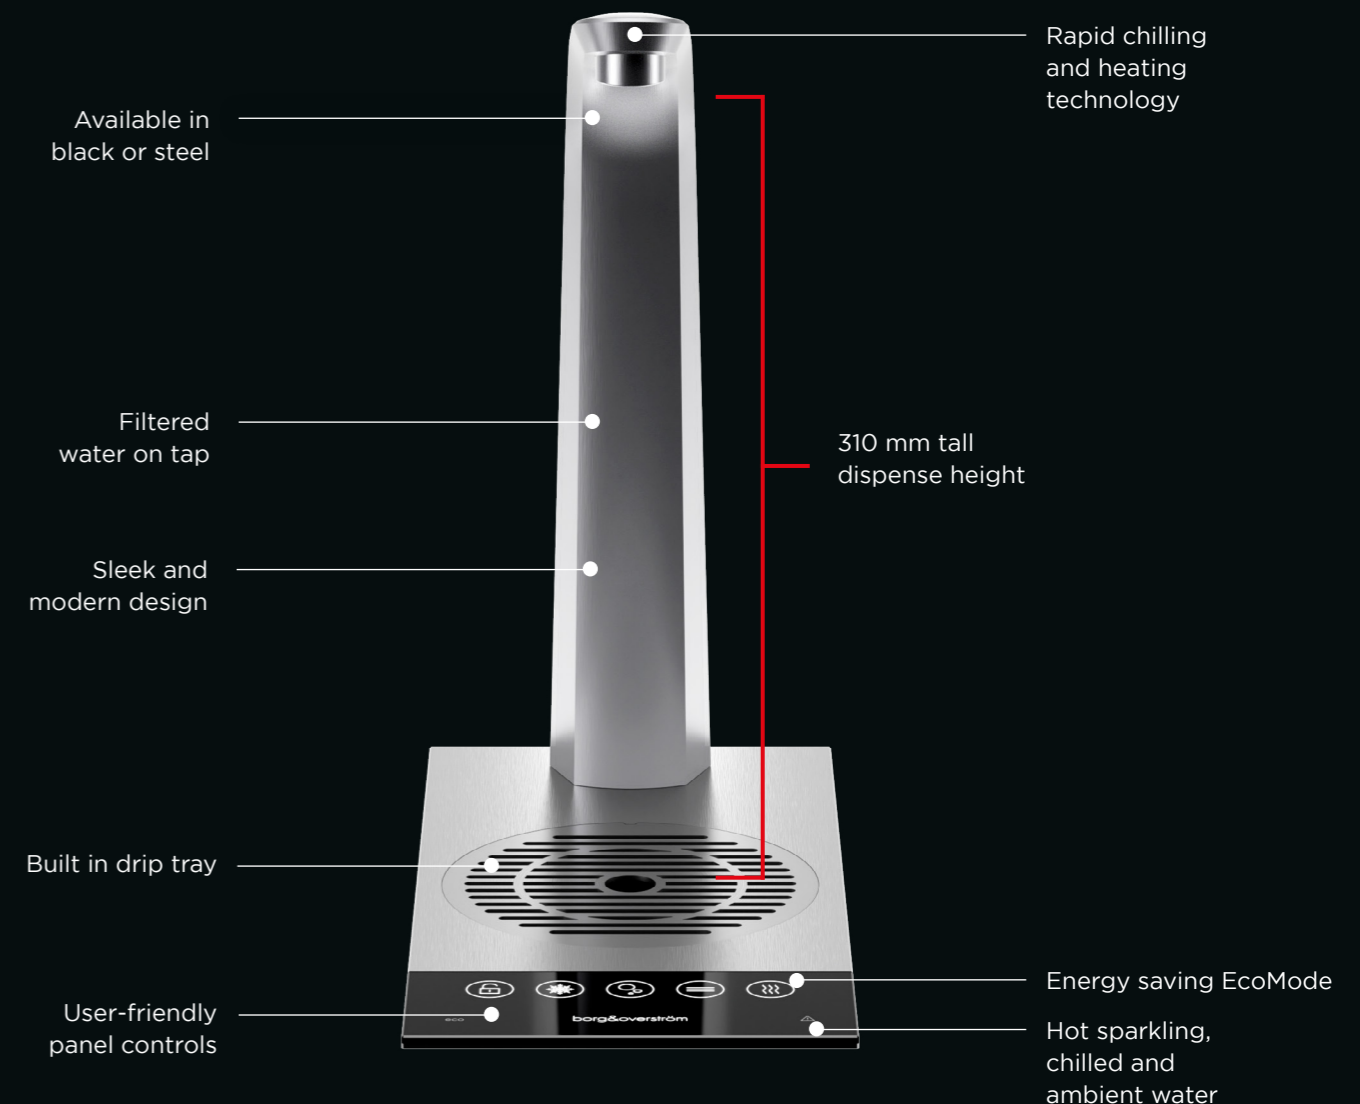

The Borg & Overström T3 combines sleek design with advanced functionality. Its tall dispense height accommodates bottles for convenient refills, reducing plastic waste. Plus four water options, hot, chilled, ambient, and sparkling, catering to every preference. With rapid chilling and heating modes, the T3 ensures a quick, efficient experience for all users.

SUSTAINABLY SMART DESIGN

Engineered for sustainability, the T3 features EcoMode technology, reducing energy use during periods of inactivity by up to 70%. Its DryChill® airless system provides hygienic, rapid cooling, and the compact ProCore® system eliminates the need for ventilation grills.

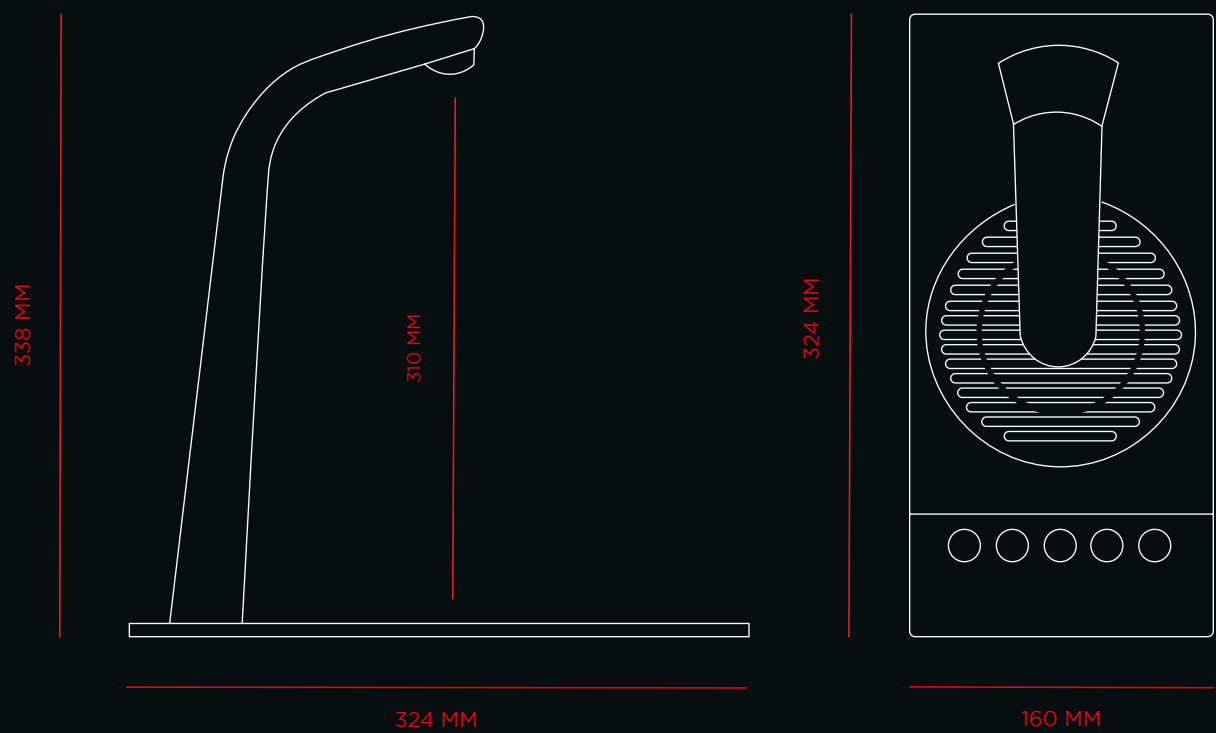

EASY TO MAINTAIN

With its modular design, the T3 offers hassle-free maintenance and servicing, while its antimicrobial finish ensures hygiene and easy-to-reach controls make operation straightforward. Designed for durability, it provides a reliable and hygienic hydration solution, ensuring uninterrupted service in busy work environments.

The Borg & Overström T3 perfectly combines modern design with sustainability, to keep teams refreshed and productive.”

Technical Information

Specification

Product ID	BOT3P
Capacity	Chilled and sparkling 80 litres per hour, hot 16 litres per hour
Drink Configurations	Chilled, Ambient, Sparkling and Hot.
Energy	1670W Max
Water	Mains connected
Colour:	Black or Steel
