

KALIX

OASIS

Water Cooler

A functional and stylish floor standing mains fed water dispenser that features an elegant design and easy to use control panel.

Suitable for a number of commercial applications, the Oasis Kalix offers high-quality, refreshing chilled water, instantly. This high volume machine is capable of producing up to 240 cups of refreshing water per hour, which is easily dispensed via the conveniently placed push buttons. The Kalix is also exceptionally simple to maintain with a front door panel that allows for effortless servicing, sanitation and filter replacements.

DIRECT CHILL TECHNOLOGY

Featuring a pressure vessel direct chill system, the Oasis Kalix secures a consistent supply of fresh, chilled drinking water. Water is chilled instantly as it passes through a pressured vessel to the point of dispense.

SPACIOUS DISPENSE AREA

The extra-tall dispense area is suitable for reusable sports bottles and jugs.

ADDED SAFETY FEATURES

The hot and cold model of the Oasis Kalix includes an added hot water safety lock to prevent accidents.

MECHANICAL AUTODRAIN

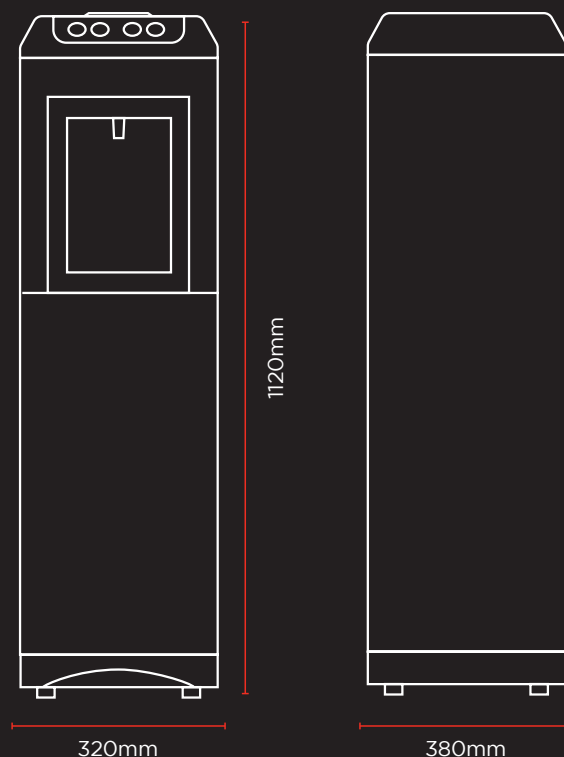

Avoid any nasty spills or overflows from the drip tray by adding an optional mechanical auto drain system to your Kalix water dispenser.
