

# PUQ Press M5

## Automatic Tamper

The PUQ Press M5 is an integrated automatic tamper designed to deliver fast, precise and consistent tamping in high-volume coffee environments. Built to sit directly beneath compatible grinders, it saves valuable counter space while improving workflow efficiency. With adjustable pressure settings and multiple tamping profiles, the M5 perfectly ensures level, repeatable tamps that support reliable extraction and reduced barista strain throughout even the busiest service periods.

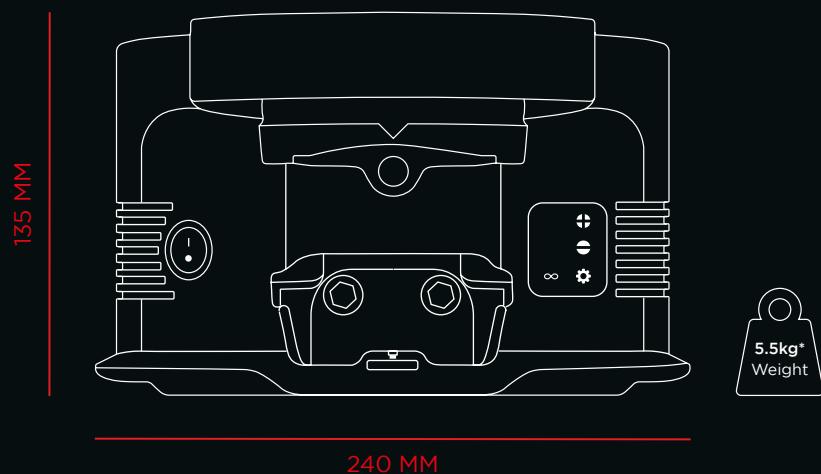

“

The PUQ Press M5 provides the perfect setup with effortless precision and consistent high-volume performance.”
